UPDATES & REMINDERS:

- **Pool Gates:** For the safety and security of our community, please ensure all pool gates remain closed at all times. Do not prop gates open.
- **Guests at the Pool:** Residents must accompany their guests at all times while using the pool. Guests are not permitted to use the pool or pool area unless they are accompanied by the resident who invited them.
- **A/C Tips:** When temperatures reach 104°F, your air conditioner may run longer than usual. Most residential A/C systems are designed to cool your apartment by about 20–30 degrees below the outdoor temperature, so it's normal for them to work continuously during extreme heat. Since your A/C is running longer to keep up with the heat, you may also notice an increase in your electric bill during periods of extreme temperatures.

To help keep your apartment cooler and manage energy costs:

- Keep blinds and curtains closed during the day.
- Keep doors and windows closed while the A/C is running.
- Set your thermostat to one temperature—lowering it won't cool your apartment faster.
- Use ceiling or portable fans to help circulate cool air.
- Limit using the oven, dryer, and dishwasher during the hottest part of the day.

**Sundae Funday!**  
**Thursday, August 13 @ 3:00P**

Don't dessert us! Join us for an Ice Cream Sundae Party on Thursday, August 13th at 3:00 PM.

Build your dream sundae, pile on the toppings, and chill out with friends. We can't promise the weather will cool down, but your ice cream definitely will!

Brain freeze beats heat stroke any day!

Bonus Sweetness! Thanks to AT&T, we'll also be giving away a special raffle prize during the event. Be sure to stop by for your chance to win!

# AUGUST 2026

Hello, August! The month where it's still hot enough to fry an egg on the sidewalk, while we're all pretending fall is just around the corner.

With temperatures climbing to 104°F (and feeling more like 108°F), please take extra precautions. Drink plenty of water, avoid prolonged outdoor activities during the hottest part of the day (typically 10 a.m.–6 p.m.), wear light-colored clothing. Don't forget your pets! Make sure they always have fresh water, limit walks to the early morning or evening, and avoid hot pavement, which can burn their paws. Never leave pets unattended in a parked vehicle, even for a few minutes.

Here's to staying cool until those cooler fall days finally arrive!

Patricia's Corner

August has arrived, bringing sunshine, flip-flops, and the annual debate: Is it too early to start thinking about pumpkin spice? This is the month when we walk outside, instantly question our life choices, and make a serious commitment to staying within five feet of the nearest air conditioner.

If you find yourself saying,

"It's not the heat, it's the humidity," congratulations—you are officially an August resident! As we soak up the last days of summer, remember to stay cool, enjoy the little moments, and keep smiling. Wishing everyone a wonderful August filled with laughter, good conversations, and just enough iced drinks to make it through until pumpkin season arrives!

P.S. If your steering wheel feels like it's been preheated to 450°, it might be time to ask the office about carport availability!
