Applicants must collectively have income in an amount not less than three times the rental rate. We obtain a credit report on each applicant. Our credit reporting agency evaluates credit (which may include rent payment history) as an indicator of future rent payment performance. An unsatisfactory finding will result in the requirement of an additional deposit or denial. Applicants are responsible for ensuring their credit history is accurate.

We obtain a criminal background check on each applicant who will reside in the apartment home. It is possible your application will be denied due to criminal convictions.
